

## **Medication Notice for Parents**

**This notice is extremely important so please read it carefully and follow the instructions completely. ALL campers who bring medications to camp are REQUIRED to:**

- Make sure that parents **list all the medications** the camper is bringing to camp.
- **ALL** over the counter drugs must be in the original bottle/box, labeled and have the **person's name written on it.**
- Please explain to your camper what medications they are taking and how important it is that they report to the camp nurse to take them as prescribed.
- On Registration day, please bring the medications in a bag with the name of the camper/staff member on it.
- Please bring only the number of pills that will be needed for the week (and maybe a few extra in case one drops) since the nurse must count all of the medications brought and enter them in to a log.

**It is imperative that we adhere to the State of GA medication requirements. If you do not provide the appropriate documentation to the camp, the Health personnel will not be able to accept the medications you bring. You will be asked to take them home with you. This may mean a trip home for you and your camper until you are able to bring the proper authorizations to camp.**
